

Introduction to Web Applications

Welcome! We will be investigating the idea of the "Web Landscape", as well as setting up our computers for work! We will also have a fun puzzle to try out in groups.

Outcomes

- Introducing the basics of Static and Dynamic Web Sites
- Introducing client and the server when it comes to the context of a web site

Synchronous Activities

- In Class Activity - Ambiguous Date!
- Guide to navigating blackboard resources
- Reviewing the Critical Path
- Reviewing the Course Outline

Upcoming Assessments

- Week 1 - Lab Activity (Not Graded)
- Week 4 - Assignment 1
